Description

Cappadocia, Pamukkale and Ephesus are three popular tourist destinations located in Turkey. These three destinations offer a unique combination of natural beauty, cultural significance, and historical significance, making them a popular choice for travelers looking to explore the country. Cappadocia is known for its unique geological formations, including "fairy chimneys" and underground cities. The region is also home to several ancient churches and monasteries, as well as traditional Turkish villages. Visitors can take hot air balloon rides to get a bird's eye view of the landscape. Pamukkale is a thermal resort town famous for its natural hot springs and travertine terraces. The terraces are formed by the calcium-rich water from the hot springs, which has created a series of pools and cascades. Visitors can take a dip in the thermal pools or walk along the terraces to see the unique geological formations. The town is also home to the ancient Roman city of Hierapolis, which is a UNESCO World Heritage site. Ephesus is an ancient city located on the west coast of Turkey. It was once the capital of the Roman province of Asia Minor and is home to a number of important historical and cultural sites. Visitors can explore the ruins of the city, including the Temple of Artemis, one of the Seven Wonders of the Ancient World, and the Library of Celsus. The city is also home to the House of the Virgin Mary, a Christian shrine believed to be the final resting place of Mary, the mother of Jesus. A package tour of Cappadocia, Pamukkale, and Ephesus from Istanbul allows travelers to experience the best of Turkey in a single trip. Witness the spread of Christianity in rock-hewn churches of Cappadocia Conquer the scenery of Cappadocia from up above: Hot air balloon flights Travel back to ancient Greek and Roman times Make a pilgrimage to the house of Virgin Mary Touch the snow-white travertines, created by thermal waters that give life to Hierapolis Ancient City
